

## X904

### Offshore Personnel Transfer Basket

#### Description

SHUNDA' s X904 transfer basket is used to transport personnel on and off of platforms quickly and effectively. It is made of sturdy and durable aluminum skeleton that encompasses the rider to protect them from falling objects and any side impact may occur.

All models are equipped with quick release safety lanyards to provide safety and give the rider confidence while transit. The X904 transfer basket is built above and beyond standard safety rules and regulations to provide a superior product.

The basket center column is detachable and can be folded, which makes it easier to store and transport. The bottom floor is rubber material, non-slip and shock-absorbing.

#### Specification

Model	Capacity / Persons	Dimension / MM ( Height * Top Dia. * Bottom Dia.)	Gross Weight / KGS	Safety Woking Load / KGS
X904-04	4	2438×1700×2160	420	380
X904-06	6	2438×2000×2540	450	570
X904-08	8	2438×2000×2540	455	760
X904-10	10	2438×2210×2820	480	950
X904-12	12	2438×2400×3000	490	1140

Note: Total height including load line is 10 meters. ABS certificate is available upon request.
