HXDL-XLZ

Personnel Transfer Basket

Description

This personnel transfer basket is used to transport personnel on and off of platforms quickly and effectively. It is made of sturdy and durable aluminum skeleton that encompasses the rider to protect them from falling objects and any side impact may occur.

All models are equipped with quick release safety lanyards to provide safety and give the rider confidence while transit. The transfer basket is built above and beyond standard safety rules and regulations to provide a superior product.

The basket center column is detachable and can be folded, which makes it easier to store and transport. The bottom floor is rubber material, non-slip and shock-absorbing.
